

ABORTING AMERICA & KERMIT GOSNELL

This baby girl was murdered by Complicit America. The image was taken from the “REPORT OF THE GRAND JURY” in the Court of Common Pleas, First Judicial District of Pennsylvania, Criminal Trial Division, GRAND JURY XXIII, by R. Seth Williams, District Attorney, 2011. Babies by the thousands are murdered all across our land, and America has been failing to stop the carnage.

To the lower-right is an infant boy who was murdered in Kermit Gosnell’s Philadelphia abortion clinic—and a mother murdered by the same clinic →

If you think these are fake images, you can get your own copy of the report online. All of these images are there—and more.

Now why do I say “Complicit America”? In the excellent book, *Gosnell: The Untold Story of America’s Most Prolific Serial Killer* by Ann McElhinney and Phelim McAleer, we learn that it was Republican Governor Tom Ridge who instituted the hands-off policy for regulating abortion clinics in Pennsylvania.

Gosnell is currently serving life sentences in a PA prison for multiple murders, but for a long time he was **enabled** by the Commonwealth of Pennsylvania to continue his murderous work. It was, “Look the other way.” Many administrators were complicit, but when American voters vote pro-death (anti-pro-life), they themselves become complicit in this evil. We ask, “Why didn’t the German people stop Hitler?” Answer? For the same reason American people don’t stop Margaret Sanger and her Planned Parenthood’s atrocities. Sanger was a racist bigot and evolutionary activist to the core. She wrote, “The most merciful thing that the large family does to one of its infant members is to kill it” (*Woman and the New Race*, 1920).

Finally, after Gosnell was exposed, Republican Governor Tom Corbett called the failures at the Department of Health and the Department of State “despicable” and “sacked six managers and started updating the state regulations that govern abortion clinics.”

Listen to the witness of Lynda Williams (shown to the right). She had an 8th grade education and got caught up in Gosnell’s House of Horrors. At the trial (regarding “Baby D”), she testified, “The baby precipitated into the toilet. I took it out of the toilet and put it into a bowl and I used surgical scissors to cut the back of the baby’s neck, just like Dr. Gosnell showed me to do.” She gave additional clarity, “Before I cut the neck, I saw the baby’s arms moving. This was when I took it from the toilet and put it in the bowl and then I went to put it in a milk jug to take it upstairs. Before I put it in the milk jug, I saw the arms moving, and that’s when I cut the back of the neck.” She was not even a high school graduate; nevertheless, Gosnell employed her and taught her murder.

Over a month ago (Feb 3, 2018), I sent a letter to “Inmate LJ1445 (Kermit Gosnell).” I referred to the book I had been reading and supplied him with a stamped envelope to return responses to my questions. One of them was, “How would you describe yourself? Baptist? Atheist? Buddhist?” I also asked him if he were “a follower of Darwin?” No response yet.

In the book, which I finished reading last evening (3/4/18), there is a “poem” by Gosnell which uses Genesis 2:7 to justify abortion. The verse says, “Yahweh God formed man from the dust of the ground and breathed into his nostrils the breath of life; and man became a living soul.” Gosnell wrote, “Application: No life until breath.”

Does this doctor actually believe that a child in the womb for nine months is not living because it’s not breathing? What kind of doctor is he? Second, just seven chapters later in the same book (Genesis) it says, “Whoever sheds man’s blood, his blood will be shed by man, for God made man in his own image.”

Gosnell (pictured with his death-clinic) had all kinds of human blood all over his hands. He actually should be put to death for being the worst serial-killer ever in America. He got away with this for over **30 years!** Americans are still complicit in evil. Keeping this man alive at taxpayers’ expense instead of sending a message that murderers, in line with Gen 9:6, should be put to death by the state, is disobeying God. One advantage of obeying God would be that the murderer would not be able to murder again! Another is that we taxpayers don’t have to pay for his food and lodging for the rest of his life. A case could be made that his being cared for by taxpayers is actually a reward—no longer having to work for food, heat, and bed.

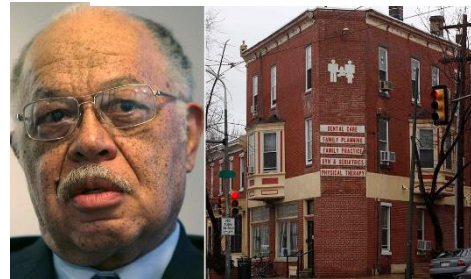

Gosnell also sought to justify his actions by referred to Jesus’ words in John 15:2, “Every branch that bears fruit, He prunes, that it may bear more fruit.” What was Gosnell’s comment for this verse? “Application: A woman ‘purged’ brings forth more fruit.” The previous verse, however, says, “I [Jesus] am the true vine, and my Father is the farmer.” Gosnell’s “Application” is twisted and perverse.

First, Jesus was speaking of the Father pruning—**not** Kermit Gosnell. In no way should Gosnell be confused with God the Father. Second, pruning should be done after the fruit has been harvested. Women coming to Kermit were fruit-bearing. Harvest the fruit; don’t kill it! Third, the women statistically were significantly damaged—less able to bear fruit in the future.

Should we conclude that Gosnell was a Christian because he quoted the Bible? The devil also quoted the Bible (cf. Mt 4:6), but he was no less the devil. People who twist God’s Word to justify the murder of hundreds (if not thousands) are more in league with the devil than Christ. Jesus said the devil was a murderer from the beginning (cf. Jn 8:44); Gosnell was in league with killing.

Here is an overview of the Grand Jury’s findings, “This case is about a doctor who killed babies and endangered women. What we mean is that he regularly and illegally delivered live, viable, babies in the third trimester of pregnancy—and then murdered these newborns by severing their spinal cords with scissors. [This present video gives a picture of one of these near the end. Viewers will be warned before the image appears.] The medical practice by which he carried out this business was a filthy [and hideous] fraud in which he overdosed his patients with dangerous drugs, spread venereal disease among them with infected instruments, perforated

their wombs and bowels—and, on at least two occasions, caused their deaths. Over the years, many people came to know that something was going on here. But no one put a stop to it.”

One of the bizarre aspects of this, as reported and even illustrated by the Grand Jury, is that Gosnell kept baby feet apparently as trophies. An image of this too will be provided near the end. Again, the viewer will be forewarned.

Additionally, concerning the woman he murdered, Gosnell said to investigators at the clinic, “Oh, by the way, that’s Mrs. Mongar’s fetus.” He was referring to the “fetus” she had delivered before her death; the girl baby was still in one of Gosnell’s freezers. The mother had died months earlier.

On p. 189, the authors of the book, *Gosnell*, refer to the testimony of Dr. Charles Benjamin during the trial. He was asked how many abortions he had performed over the course of his career. He said at least 40,000. The jury was shocked, and so should be every American! OB/GYN doctors all over this country are doing similar. The number associated with Hitler is 6 million; the number associated with American abortions since 1973 is about 10 times that number! Is America ten times worse than Hitler’s Germany?

On p. 210, Jack McMahon, Gosnell’s lawyer, quizzed Dr. Karen T. Feisullin (on 3/6/18 was listed on a Jefferson Health website as “A proud member of Abington Health Physicians”) about a breach abortion. She said that “a suction catheter is inserted at the base of the skull to remove the contents of the head ... and the brain is suctioned out [so that] the skull collapses and it comes out easily.”

America, this was an American doctor testifying, presumably under oath. Are you excited about sucking babies’ brains out? Should Democrats and/or Republicans ever vote pro-death again?

Further down, on the same page, she affirmed McMahon’s summary: “they would jam scissors in the baby’s skull; the scissors are then open (sic) to enlarge the hole, the scissors are removed and the suction cup is inserted, the brains are sucked out, causing the skull to collapse, and the baby is then removed....”

Americans, this evil has been happening all over our land for 45 years! I hate it. Don’t you? Always vote pro-life for the unborn, but it’s okay to vote pro-death for murderers. God Himself says so in Gen 9:6.

On p. 265, Carly Fiorina, former Presidential Candidate said, “Watch a fully formed fetus on the table, its heart beating, its legs kicking, while someone says we have to keep it alive to harvest its brain. This is about the character of our nation, and if we will not stand up and force President Obama to veto this bill, shame on us” (cf. CNN transcript of GOP Presidential Debate, 9/16/2015).

I agree with her. No President in our country should ever countenance such ugliness and evil. Have you had an abortion? Have you encouraged someone else to have an abortion? Are you burdened by a secret? There’s hope. Yes, killing a baby is murder, but that is why Jesus went to the cross. You can have that sin forgiven, but you must admit your sin and trust in Him to cleanse you from it by His precious blood shed on a cross 2,000 years ago. He cleanses me daily; He can cleanse you. Turn from your sin in faith to Him. Talk to Him. He is God the Son; He can hear your prayer. Read His invitation to you in Mt 11:28-30. Also read 1 John 1:7. Come to know the joy of forgiveness. Look for ways to help both mothers and their babies. Jesus said, “The

thief only comes to steal, kill, and destroy. I came that they may have life and may have it abundantly” (John 10:10). Feel free to call me, 215-483-9846, or write to paulhumber@verizon.net. If you are a woman, perhaps I can refer you to my beloved wife—who has much wisdom in this area.
